

Net-Noggin Expands Virtualization Services

Granger, IN, - August 11, 2008 –

Net-Noggin, LLC is pleased to announce the expansion of its datacenter and server virtualization services.

Net-Noggin founder Gary King has achieved the certification of VMware Certified Professional on VI3, providing the foundation for designing, deploying and supporting virtualization solutions on market leading VMware products.

“Virtualization brings rapid ROI, management and disaster recovery benefits for the enterprise and for the small to medium business.” said King. “Continuing to provide robust solutions on VMware ESX Server and Windows 2008 Hyper-V is a core component of our business. These solutions reduce environmental impact, save physical space, consolidate aging servers and provide stable, controlled environments for production and disaster recovery.”

About Net-Noggin

Net-Noggin provides network consulting services, focused on Microsoft products, including Exchange Server and Active Directory. Net-Noggin also delivers Virtualization, Internet Security and Web based services including web hosting and carrier-grade SPAM Filtering.
